SNGL3 LED Lighthouse

Sirennet is proud to offer our new SNGL3 Series GEN3 LED Lighthouse. This compact unit offers the convenience of easy mounting because it is small enough to mount almost anywhere. But because of its Generation 3 LEDs spreader optics it performs like light heads twice its size. The GL3 light output is truly amazing and can be mounted in the grill, on side mirrors, on bumpers, or numerous other applications. With 10 different built in flash patterns you can choose the pattern that you want. This four wire GL3 allows for synchronization for simultaneous or alternating patterns. Clear outer lenses and colored LED's will blend into almost any vehicle. Several mounting brackets are available.

Features:

3 - Generation 3 LEDs with spreader optic lenses.

Standard Mode: 10 different Flash Patterns plus Steady Burn.

Synchronize Mode: 7 Different Flash Patterns each with Phase 1 and Phase 2.

Fully encapsulated for vibration, moisture and corrosion resistance.
