

**NEW  
Product  
Release**

**4500 Series Class 1 LED Beacon**

#ELB45BM(z) + (x)(y) Magnet Mount

#ELB45BC(z)Ø(x)(y) Flat/Pipe Mount

(z=dome height, x=LED color, y=dome color)

**NEW! LED Beacon available in 4" & 6" Dome heights takes beacons to next generation of power.**

**GOOD BETTER BEST**  
PRODUCT RATING

**Features**

- Self-contained LED Beacon with superior optics and optimal light distribution.
- Amber LED Beacon is rated at 1300 lumens for a bright signal in even the darkest conditions.
- LED lighting means low maintenance and less operating costs - no more replacement strobe tubes! Beacon is rated to last 20,000+ hours for a long-lasting and reliable light source.
- Features Double Fresnel Polycarbonate lens design - optics are molded into the inner and outer lens for better light distribution.
- Lens is made from a durable polycarbonate designed with premium optics & base is a sturdy cast aluminum with a black powder coat finish.
- Same footprint as our 4000 Series Strobe beacons so retrofitting from an existing strobe beacon is simple.

**12 powerful Gen3 LEDs provide the brightness & fresnel lens optics disperses & maximizes output.**

**An Amber LED Beacon shown illuminated. Reliability & power packaged in a beacon - no more burned out strobe tubes to change!**

**TECHNICAL SPECIFICATIONS**

Flash Patterns:	8 patterns (user selectable)
Input Voltage Range:	10 - 30 Vdc
Current Consumption:	1 amp @12V, 0.5 amps @ 24V
Technology:	12 Gen3 LEDs
Light Sync Technology:	Yes
Output:	Amber, Blue & White - 9 watts Red 6 - watts
Operating Temperature:	-40° to +65° C
Dimensions:	height x diameter
	Low Dome 4.63" h x 6.35" diam. High Dome 6.56" h x 6.35" diam.
