MINI LIGHTBAR

by SoundOff Signal

LED3 Mini Lightbar
 Magnetic Mount: #EL3MBM+(x)C
 Permanent Mount: #EL3MBP+(x)C

Magnetic Mount shown.

Features

- NEW! LED3 Mini Lightbar is built with ten LED3 Mini Light Modules. The modules are placed around the inside perimeter of the housing providing 360 degrees of bright LED output. Clear outer housing is made with a durable polycarbonate with a UV inhibitor to prevent yellowing of the lens. Injection molded black polycarbonate and ABS base is strong and long-lasting and the wire exit can be moved to exit left or right depending on your needs.
- Available as a Magnetic Mount or Permanent Mount. Magnetic Mount has four extra strong magnets with an 85 lb. pull each to prevent the bar from slipping or moving. Clear protective disks are supplied to cover the magnets and prevent scratching of the vehicle paint.
- Lightbar features 24 Flash Patterns with many new flash pattern offerings. Flash Patterns are easily selected with our new Cigar Plug with a 3-position rocker switch. Simply press the down arrow to advance to the pattern desired and then turn the lightbar on. Non-volatile memory recalls last flash pattern used upon power up.
- The LED3 Mini Lightbar has a very low amp draw at less than 6 amps. Input voltage range is 10-15 Vdc (10-30 Vdc coming soon).
- Available in Amber, Blue, Red & White LEDs in solid or split colors.

Available in a Permanent Mount option.

Amber LED3 Mini Lightbar.

Dimensions (bar only):
 14.25" length x 8.27" width x 1.90" height
 Permanent Mount has a 2.93" overall height w/ a 1.05" clearance.
 Magnetic Mount has a 2.78" overall height w/ a 0.87" clearance.
