Features

- New "Fusion Technology", an extreme, wide angle optic technology that disperses an even distribution of light with a super wide angle output.
- Available as a Magnetic Mount or Permanent Mount. Magnetic Mount has four extra strong magnets with an 85 lb. pull each to prevent the bar from slipping or moving. Clear protective disks are supplied to cover the magnets and prevent scratching of the vehicle paint.
- Lightbar features 28 Flash Patterns with many new flash pattern offerings. Flash Patterns are easily selected with our new Cigar Plug with a 3-position rocker switch. Simply press the down arrow to advance to the pattern desired and then turn the lightbar on. Non-volatile memory recalls last flash pattern used upon power up.
- Available in Amber, Blue, Red & White LEDs in solid or split colors.

TECHNICAL SPECIFICATIONS

# of Flash Patterns:	28
Input Voltage:	10 - 16
Current Draw:	0.5 amps average @ 12.8
# of LEDs:	24 Gen3 LEDs
